PROGRAM OVERVIEW

ARTS CATALYZE PLACEMAKING

The **Connecticut Office of the Arts (COA)** along with the **State Historic Preservation Office (SHPO)** offer the Arts Catalyze Placemaking (ACP) grant program to invest in arts-based cultural projects, activities and infrastructure in ways that will advance the attractiveness and competitiveness of Connecticut cities, towns, and villages as meaningful communities in which to live, work, learn and play.

The FY15 ACP program includes three (3) distinct categories for which applicants may select only one (1) category to pursue in a single grant cycle. The categories are as follows:

- **Arts Leadership**
- **Historic Preservation**
- **Supporting Arts in Place**

The Connecticut Office of the Arts funds creative placemaking through Arts Leadership (project support) and Supporting Arts in Place (general operating support); and the State Historic Preservation Office offers grants (project support) to Connecticut municipalities, 501(c)3 and 501(c)13 non-profits who engage the arts community in creative ways that promote the preservation of historic places. Education-based proposals are eligible in FY2015 through the Arts Leadership category. It is the responsibility of the applicant to select the appropriate category and to make the case for their selection.

[FY2015 ACP ~ At-a-Glance](#) provides a snap-shot of the three (3) Arts Catalyze Placemaking grant categories.

HPACP CATEGORY

The State Historic Preservation Office, in partnership with the Connecticut Office of the Arts offers matching, progress-based payment grants to Connecticut municipalities, 501(c)3 and 501(c)13 non-profits who engage the arts community in creative ways that promote the preservation of historic places.

HP-ACP Grants are funded by the Community Investment Act. "The Community Investment Act" (also known as Public Act 05-228) was signed into law on July 11th, 2005 to address the social and environmental impacts of suburban sprawl in the Connecticut landscape by protecting and preserving the quality, character, and desirability of life in Connecticut. Connecticut General statute has a broad definition of Historic Preservation, which is defined as "research, protection, restoration, stabilization and adaptive re-use of historic buildings, structures, objects, districts, areas and sites significant in the history, architecture, archeology or culture of this state, its municipalities, or the nation". This also includes "promoting and publicizing the historical heritage of Connecticut".

SHPO/COA’s GOALS & PRIORITY OUTCOMES

The HP-ACP program was developed with research-based goals and priority outcomes at its core. COA’s creative placemaking goals are:

- Community Relevance & Civic Engagement – *The Arts are essential in the development of great places*
- Arts Engagement, Artistic Excellence & Creativity – *High quality art and arts experiences stir creativity and critical thinking and advance cognitive, emotional and social health.*
- Market Development – *The Arts are an essential component of Connecticut’s environment and should be accessible to the greater community.*

SHPO’s goal is:

- Historic Preservation - *Historic preservation is the process of identifying, protecting, and enhancing buildings, places, and objects of historical and cultural significance to our communities.*

Review the [Goals and Priority Outcomes Table](#) to familiarize yourself with COA’s goals and priority outcomes before you begin your application. The purpose of the Table is to provide applicants with a clear understanding of COA’s goals and priority outcomes so applicants may identify ways in which their project and COA’s goals are aligned. **The Goals and Priority Outcomes Table is the foundation of the Arts Catalyze Placemaking application and review process.**
